Vote yes for change

I don't quite understand how a no vote on the recall ballot will unite Ashland. My neighbor, an Ashland city councilor, proclaims his support by beaming a spotlight on his lawn sign all night long.

If only a spotlight of transparency had been shown on APRC's motivations *before* they were allowed to destroy public trust! That might have prevented a few men from asserting their limited agenda to anger and outrage.

Now public scrutiny has uncovered more than a few problems. A spotlight may have instead united Ashlanders in kindness and cooperation for the good of the entire community. Vote *yes* to unite Ashland for *change*.
