

5 Recall Reasons

1. Ashland Parks & Recreation Commissioners (APRC) continue to mismanage their \$9 million annual budget, seriously threatening the sustainability of the city's general fund.
2. APRC mismanages personnel. For example, they laid off effective, well-qualified staff at the Senior Center and replaced them with unqualified parks employees, thus endangering our seniors' well-being.
3. APRC repeatedly and flagrantly failed to follow Oregon Public Meetings Law by under-publicizing meetings, disallowing or ignoring public input, and failing to accurately reflect citizen input in meeting minutes.
4. With disregard for public concern, APRC voted to spend \$230,000 for a Portland consultant to decide the fate and future design of Lithia Park, threatening specific historic sites in our beloved crown jewel.
5. APRC spent \$49,000 on the 2016 Performance Audit which recommends, 'Do a better job with what you have before making any changes.' and 'Conduct a comprehensive community needs assessment before acting.' Then they ignored these recommendations.
